## Notes:

(1) The Company adopted ASU No. 2017-07, "Compensation–Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," on January 1, 2018. The adoption of this standard resulted in the non-service related postretirement costs being presented separately in the income statement from the service cost component and the non-service related postretirement costs no longer being included in Operating profit. The reclassification had no effect on Net income attributable to Colgate-Palmolive Company, Earnings per common share or Cash flow.

Refer to the Company's website for reconciliations to previously reported amounts for all quarters of 2017 as well as for years 2017 and 2016.

- (2) The income tax effect on non-GAAP items is calculated based upon the tax laws and statutory income tax rates applicable in the tax jurisdiction(s) of the underlying non-GAAP adjustment.
- (3) The impact of non-GAAP items on the Company's effective tax rate represents the difference in the effective tax rate calculated with and without the non-GAAP adjustment on Income before income taxes and Provision for income taxes.
