PART I

ITEM 1. BUSINESS

(a) General Development of the Business

Colgate-Palmolive Company (the "Company") is a corporation which was organized under the laws of the State of Delaware in 1923. The Company manufactures and markets a wide variety of products throughout the world for use by consumers. For recent business developments, refer to the information set forth under the captions "Results of Operations" and "Liquidity and Capital Resources" in Part II, Item 7 of this report.

(b) Financial Information About Industry Segments

For information about industry segments refer to the information set forth under the caption "Results of Operations" in Part II, Item 7 of this report.

(c) Narrative Description of the Business

For information regarding description of the business refer to Note 1 to the Consolidated Financial Statements included herein; "Average number of employees" appearing under "Historical Financial Summary" included herein; and "Research and development" expenses appearing in Note 11 to the Consolidated Financial Statements included herein.

Compliance with environmental rules and regulations has not significantly affected the Company's capital expenditures, earnings or competitive position. Capital expenditures for environmental control facilities totaled \$21.6 million in 1996 and are budgeted at \$25.1 million for 1997. For future years, expenditures are expected to be in the same range. The Company has programs that are designed to ensure that its operations and facilities meet or exceed all applicable environmental rules and regulations.

(d) Financial Information About Foreign and Domestic Operations and Export Sales

For information concerning geographic area financial data refer to the information set forth under the caption "Results of Operations" in Part II, Item 7 of this report.

ITEM 2. PROPERTIES

The Company owns and leases a total of 321 manufacturing, distribution, research and office facilities worldwide. Corporate headquarters is housed in leased facilities at 300 Park Avenue, New York, New York.

In the United States, the Company operates 46 facilities, of which 26 are owned. Major U.S. manufacturing and warehousing facilities used by the Oral, Personal and Household Care segment are located in Kansas City, Kansas; Morristown, New Jersey; Jeffersonville, Indiana; and Cambridge, Ohio. The Company is transforming its former facilities in Jersey City, New Jersey into a mixed-use complex with the assistance of developers and other investors. The Pet Nutrition segment has major facilities in Bowling Green, Kentucky; Topeka, Kansas; and Richmond, Indiana. Research facilities are located throughout the world with the primary research center for Oral, Personal and Household Care products located in Piscataway, New Jersey.

Overseas, the Company operates 275 facilities, of which 117 are owned, in over 70 countries. Major overseas facilities used by the Oral, Personal and Household Care segment are located in Australia, Brazil, Canada, China, Colombia, France, Italy, Mexico, Thailand, the United Kingdom and elsewhere throughout the world. In some areas outside the United States, products are either manufactured by independent contractors under Company specifications or are imported from the United States or elsewhere.

All facilities operated by the Company are, in general, well maintained and adequate for the purpose for which they are intended. The Company conducts continuing reviews of its facilities with the view to modernization and cost reduction.

#### ITEM 3. LEGAL PROCEEDINGS

For information regarding legal matters refer to the discussion set forth under the caption "Outlook" in Part II, Item 7 and Notes 3 and 16 to the Consolidated Financial Statements included herein. The Company expects shortly to enter into its undertakings described in Note 16.

#### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

NET SALES

Worldwide net sales increased 5% to \$8,749.0 in 1996 on volume growth of 5% reflecting increases in every geographic region. Sales in the Oral, Personal and Household Care segment were up 4% on 5% volume growth.

In 1996, sales in North America rose 5% on the same percentage of volume growth. Market share climbed for three of the region's key product categories: toothpaste, dishwashing liquid and deodorants. Products

contributing to the sales growth included Colgate Baking Soda & Peroxide toothpaste, Palmolive antibacterial dishwashing liquid, Speed Stick gel and Irish Spring Sport soap.

Overall sales in Europe decreased slightly in 1996 on 3% higher volume due primarily to the negative effects of weaker European currencies. Volume was up sharply in Russia. New product launches including Colgate Triple Stripe toothpaste, Fabuloso fabric softener and Ajax Expel cleaner, as well as the relaunching of Palmolive Shower gel, enabled the region to achieve higher volume and increase market share for a majority of its core categories.

Sales in Latin America were up 8% on 7% volume growth. Leading the way in this region were Argentina, Brazil, Chile, Dominican Republic and Ecuador which were partially offset by the negative impact of Venezuela caused by the country's economic downturn. Mexican operations are beginning to recover from the economic downturn of 1995. New product introductions contributed to the rapid expansion of sales in this region, which is evidenced by the success of Colgate Total Fresh Stripe toothpaste and Colgate Baking Soda & Peroxide toothpaste, Protex Fresh soap, Fab Total detergent and Suavitel fabric softener refills.

The Asia/Africa region posted an overall sales increase of 6% on 7% volume growth for the year, largely due to a combination of new product introductions and geographic expansion, especially in China. The successful introductions of new products elsewhere in the region including Fabuloso fragranced cleaner, Protex Fresh soap, Dynamo antibacterial detergent, Palmolive Optims Shampoo and Palmolive Shower Cream also contributed to the volume growth.

Sales for the Pet Nutrition and Other segment increased 10% on 6% volume growth. Hill's Pet Nutrition completed its transition to a company-owned distribution and sales network. During 1996, Hill's also relaunched the entire Science Diet line and added three new products. Due to Hill's' rapid expansion in international markets, a European manufacturing facility was added in 1996 in order to support this growth.

Worldwide net sales in 1995 increased 10% to \$8,358.2, reflecting growth among all divisions. Asia/Africa with sales growth of 17% on 13% higher volume and Latin America with 14% sales growth on 21% higher volume led the way on the strength of oral and personal care product sales. North America posted overall sales increases of 10% on 9% volume growth, largely due to the introduction of new products. Sales in Europe were up 10% on flat volumes, primarily reflecting the positive effects of stronger European currencies. Sales for the Pet Nutrition and Other segment declined, reflecting the sale of non-core businesses in 1994, partially offset by a modest sales increase of 2% at Hill's.

#### GROSS PROFIT

Gross profit margin was 49.1%, above both the 1995 level of 47.9% and the 1994 level of 48.4%. The 1996 increase reflects cost-reduction programs, focus on high margin products, the initial benefits of the 1995 restructuring program and economic recovery in Mexico.

#### SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses as a percentage of sales were 35% in 1996, 34% in 1995 and 35% in 1994. The modest increase in 1996 represents increased advertising spending, increased investment in China, India and Russia as well as slightly higher distribution costs. The Company continues to focus on expense-containment strategies including the 1995 restructuring program. It is anticipated that these initiatives will provide incremental funds to further increase investments in research and development as well as media advertising to support growth.

#### PROVISION FOR RESTRUCTURED OPERATIONS

In September 1995, the Company announced a major worldwide restructuring of its manufacturing and administrative operations designed to further enhance profitable growth over the next several years by generating

significant efficiencies and improving competitiveness. The charge included employee termination costs and expenses associated with the realignment of the Company's global manufacturing operations, as well as settlement of contractual obligations. The worldwide restructuring program resulted in a 1995 third quarter pretax charge of \$460.5 (\$369.2 net of tax) or \$2.54 per share for the year. To date, 14 factories have been closed or reconfigured, and the realignments in facilities around the world are expected to be substantially completed during 1997.

#### OTHER EXPENSE, NET

Other expense, net of other income, consists principally of amortization of goodwill and other intangible assets, minority interest in earnings of less-than-100% owned consolidated subsidiaries, earnings from equity investments and asset sales. Amortization expense increased in each of the three years presented due to higher levels of intangible assets stemming from the Company's recent acquisitions, most notably Kolynos in 1995 and Cibaca in India in 1994.

#### EARNINGS BEFORE INTEREST AND TAXES

Earnings before interest and taxes (EBIT) increased 12% in 1996 to \$1,152.0 compared with \$1,029.4 (excluding restructuring) in the prior year. EBIT for the Oral, Personal and Household Care segment was up 13% with North America, Europe and Latin America posting gains of 20%, 13% and 16%, respectively. Results in Asia/Africa were flat, reflecting a significant increase in advertising spending in the region. The Pet Nutrition and Other segment rebounded from 1995 with an increase of 7%.

In 1995, EBIT was impacted by the provision for restructured operations of \$460.5. Excluding this charge, EBIT for the Oral, Personal and Household Care segment was up 13% with North America, Asia/Africa and Latin America posting gains of 20%, 14% and 15%, respectively. Results in Europe showed modest improvement in 1995. Overall EBIT was tempered by the 27% decline in the Pet Nutrition and Other segment, principally due to the sale of non-core businesses in 1994 as well as a realignment of the sales force and distribution at Hill's.

#### INTEREST EXPENSE, NET

Interest expense, net of interest income, was \$197.4 in 1996 compared with \$205.4 in 1995 and \$86.7 in 1994. The decrease in 1996 is primarily a result of lower debt levels for the year. The increase in net interest expense in 1995 versus the prior year is a result of higher debt for the full year, incurred primarily to finance Kolynos and other acquisitions, and slightly higher effective interest rates in 1995.

## INCOME TAXES

The effective tax rate on income was 33.5% in 1996 versus 52.7% in 1995 and 34.1% in 1994. The overall effective rate in 1995 was impacted by the charge for restructuring, the tax benefit of which was 20% due to the effect of tax benefits in certain jurisdictions not expected to be realized. Excluding the charge, the effective income tax rate was 34.3% in 1995. Global tax planning strategies benefited the effective tax rate in all three years presented.

## NET INCOME

Net income was \$635.0 in 1996 or \$4.19 per share compared with \$172.0 in 1995 or \$1.04 per share including the provision for restructured operations of \$369.2 or \$2.54 per share. Excluding the special charge in 1995, earnings were \$541.2 or \$3.58 per share compared with \$580.2 or \$3.82 per share in 1994.

## LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operations increased 13% to \$917.4 in 1996 compared with \$810.2 in 1995 and \$829.4 in 1994. The increase in cash generated by operating activities in 1996 reflects the Company's improved profitability and working capital management. Cash generated from operations was used to fund capital spending, reduce debt levels and increase dividends.

During 1996, long-term debt decreased from \$3,029.0 to \$2,897.2. The Company continued to focus on enhancing its debt portfolio, resulting in the refinancing of a substantial portion of commercial paper and other short-term borrowings to longer term instruments. In 1996, the Company entered into a \$496.3 loan agreement and obtained a \$406.0 term loan with foreign commercial banks. In addition, the Company issued \$100.0 of notes in a private placement and issued \$75.0 of medium-term notes under previously filed shelf registrations.

As of December 31, 1996, \$341.9 of domestic and foreign commercial paper was outstanding. These borrowings carry a Standard & Poor's rating of A1 and a Moody's rating of P1. The commercial paper as well as other short-term borrowings are classified as long-term debt at December 31, 1996, as it is the Company's intent and ability to refinance such obligations on a long-term basis. The Company has additional sources of liquidity available in the form of lines of credit maintained with various banks. At December 31, 1996, such unused lines of credit amounted to \$1,785.7. In addition, at December 31, 1996, the Company had \$697.8 available under previously filed shelf registrations.

During 1995, the Company issued \$89.2 of Swiss franc bonds and \$71.7 of Luxembourg franc bonds, both of which were immediately swapped into U.S. dollar floating rate debt. In addition, \$220.0 of medium-term notes were issued under the shelf registration filed in May 1994. Also in 1995, the Company obtained a \$75.0 term note and filed a shelf registration for \$700.0 of debt securities.

During 1994, the Company obtained a \$50.0 term note and filed a shelf registration for \$500.0 of debt securities, of which \$208.0 medium-term notes were issued in that year.

The Company utilizes interest rate agreements and foreign exchange contracts to manage interest rate and foreign currency exposures. The principal objective of such financial derivative contracts is to moderate the effect of fluctuations in interest rates and foreign exchange rates. The Company, as a matter of policy, does not speculate in financial markets and therefore does not hold these contracts for trading purposes. The Company utilizes what are considered straightforward instruments, such as forward foreign exchange contracts and non-leveraged interest rate swaps, to accomplish its objectives. As of December 31, 1996, the Company had \$925.9 notional amount of interest rate swaps outstanding converting floating rate debt to fixed rate debt and \$285.0 of swaps outstanding converting fixed rate debt to floating.

The ratio of net debt to total capitalization (defined as the ratio of the book values of debt less cash and marketable securities ["net debt"] to net debt plus equity) decreased to 58% during 1996 from 64% in 1995. The decrease is primarily the result of higher company earnings in 1996 as well as effective working capital management and lower acquisitions than in prior years. The ratio of market debt to market capitalization (defined as above using fair market values) decreased to 17% during 1996 from 23% in 1995. The Company primarily uses market value analyses to evaluate its optimal capitalization.

Capital expenditures were 5.2% of net sales in both 1996 and 1995 and were 5.3% of net sales in 1994. Capital spending continues to be focused primarily on projects that yield high aftertax returns, thereby reducing the Company's cost structure. Capital expenditures for 1997 are expected to continue at the current rate of approximately 5% of net sales.

Other investing activities in 1996, 1995 and 1994 included strategic acquisitions and equity investments worldwide.

During 1996, the Company acquired the Profiden oral care business in Spain, the Seprod fabric care business in Jamaica and other regional brands in the Oral, Personal and Household Care segment. During 1995, the Company acquired Kolynos in Latin America and Odol oral care products in Argentina and made other regional investments. During 1994, the Company acquired the Cibaca toothbrush and toothpaste business in India and several other regional brands across the Oral, Personal and Household Care segment. The aggregate purchase price of all 1996, 1995 and 1994 acquisitions was \$38.5, \$1,321.9 and \$149.8, respectively.

During 1994, the Company repurchased a significant amount of common shares in the open market and private transactions to provide for employee benefit plans and to maintain its targeted capital structure. Aggregate repurchases for the year approximated 6.9 million shares with a total purchase price of \$411.1.

Dividend payments were \$296.2 in 1996, up from \$276.5 in 1995 and \$246.9 in 1994. Common stock dividend payments increased to \$1.88 per share in 1996 from \$1.76 per share in 1995 and \$1.54 in 1994. The Series B Preference Stock dividends were declared and paid at the stated rate of \$4.88 per share in all three years.

Internally generated cash flows appear to be adequate to support currently planned business operations, acquisitions and capital expenditures. Significant acquisitions, such as the acquisition of Kolynos discussed previously, would require external financing.

The Company is a party to various superfund and other environmental matters and is contingently liable with respect to lawsuits, taxes and other matters arising out of the normal course of business. Management proactively reviews and manages its exposure to, and the impact of, environmental matters. While it is possible that the Company's cash flows and results of operations in particular quarterly or annual periods could be affected by the one-time impacts of the resolution of such contingencies, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material impact on the Company's financial condition or ongoing cash flows and results of operations.

#### OUTLOOK

Looking forward into 1997, the Company is well positioned for strong growth in developing markets, particularly Asia and Latin America. However, economic uncertainty in Venezuela and the pace of recovery in Mexico may continue to impact overall results from Latin America, and its projected growth may be tempered until these economies become more stable. In addition, in 1996, the antitrust regulatory authorities in Brazil approved the acquisition of Kolynos subject to certain conditions. The Company is currently negotiating undertakings related to those conditions with the Brazilian authorities. The undertakings, which the Company hopes to execute soon, are expected to include a commitment by the Company to suspend the Kolynos trademark on toothpaste sold in Brazil for four years. During this time, the Company will market an alternate brand of toothpaste. The Company will continue to use the Kolynos name in Brazil for other oral care products, such as toothbrushes, mouthwash and dental floss. The undertakings are also expected to require the Company to contract manufacture toothpaste on commercial terms for third parties in Brazil. Although management is confident Kolynos can successfully operate in Brazil within these conditions, there cannot, of course, be absolute assurance that the conditions will not have an adverse impact on the Company's performance in Brazil. The acquisition is discussed further in Notes 3 and 16 to the Consolidated Financial Statements. Competitive pressures in Western European markets are expected to persist as business in this region will continue to be affected by slow economic growth, high unemployment and retail trade consolidation. Movements in foreign currency exchange rates can also impact future operating results as measured in U.S. dollars. Effective January 1997, the Company changed the functional currency of its Mexican operations from the Mexican peso to the U.S. dollar. The effect of this change on future results of operations is not determinable. Savings from the 1995 worldwide restructuring began in the latter half of 1996 and are expected to reach \$100.0 annually by 1998.

The Company expects the continued success of Colgate Total, using patented proprietary technology, to bolster worldwide oral care leadership and expects new products in all other categories to add potential for further growth. Overall, the global economic situation for 1997 is not expected to be materially different from that experienced in 1996 and the Company expects its positive momentum to continue. Historically, the consumer products industry has been less susceptible to changes in economic growth than many other industries, and therefore the Company constantly evaluates projects that will focus operations on opportunities for enhanced growth potential. Over the long term, Colgate's continued focus on its consumer products business and the strength of its global brand names, its broad international presence in both developed and developing markets, and its strong capital base all position the Company to take advantage of growth opportunities and to continue to increase profitability and shareholder value.

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Dollars in Millions Except Per Share Amounts

1. NATURE OF OPERATIONS

The Company manufactures and markets a wide variety of products in the U.S. and around the world in two distinct business segments: Oral, Personal and Household Care, and Pet Nutrition. Oral, Personal and Household Care products include toothpastes, oral rinses and toothbrushes, bar and liquid soaps, shampoos, conditioners, deodorants and antiperspirants, baby and shave products, laundry and dishwashing detergents, fabric softeners, cleansers and cleaners, bleaches and other similar items. These products are sold primarily to wholesale and retail distributors worldwide. Pet Nutrition products include pet food products manufactured and marketed by Hill's Pet Nutrition. The principal customers for Pet Nutrition products are veterinarians and specialty pet retailers. Principal global trademarks include Colgate, Palmolive, Mennen, Kolynos, Protex, Ajax, Soupline/Suavitel, Fab, Science Diet and Prescription Diet in addition to various regional trademarks.

The Company's principal classes of products accounted for the following percentages of worldwide sales for the past three years:

	1996	1995	1994
	----	----	----
Oral Care.....	30%	30%	26%
Personal Care.....	22	22	24
Household Surface Care.....	16	16	17
Fabric Care.....	18	18	18
Pet Nutrition.....	10	9	11

Company products are marketed under highly competitive conditions. Products similar to those produced and sold by the Company are available from competitors in the U.S. and overseas. Product quality, brand recognition and acceptance, and marketing capability largely determine success in the Company's business segments. The financial and descriptive information on the Company's geographic area and industry segment data, appearing in the tables contained in management's discussion, is an integral part of these financial statements. More than half of the Company's net sales, operating profit and identifiable assets are attributable to overseas operations. Transfers between geographic areas are not significant.

The Company's products are generally marketed by a sales force employed by each individual subsidiary or business unit. In some instances, distributors and brokers are used. Most raw materials used worldwide are purchased from others, are available from several sources and are generally available in adequate supply. Products and commodities such as tallow and essential oils are subject to wide price variations. No one of the Company's raw materials represents a significant portion of total material requirements.

Trademarks are considered to be of material importance to the Company's business; consequently, the practice is followed of seeking trademark protection by all available means. Although the Company owns a number of patents, no one patent is considered significant to the business taken as a whole.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The Consolidated Financial Statements include the accounts of Colgate-Palmolive Company and its majority-owned subsidiaries. Intercompany transactions and balances have been eliminated. Investments in companies in which the Company's interest is between 20% and 50% are accounted for using the equity method. The Company's share of the net income from such investments is recorded as equity earnings and is classified as other expense, net in the Consolidated Statements of Income.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

REVENUE RECOGNITION

Sales are recorded at the time products are shipped to trade customers. Net sales reflect units shipped at selling list prices reduced by promotion allowances.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. Investments in short-term securities that do not meet the definition of cash equivalents are classified as marketable securities. Marketable securities are reported at cost, which equals market.

INVENTORIES

Inventories are valued at the lower of cost or market. The last-in, first-out (LIFO) method is used to value substantially all inventories in the U.S. as well as in certain overseas locations. The remaining inventories are valued using the first-in, first-out (FIFO) method.

PROPERTY, PLANT AND EQUIPMENT

Land, buildings, and machinery and equipment are stated at cost. Depreciation is provided, primarily using the straight-line method, over estimated useful lives ranging from 3 to 40 years.

GOODWILL AND OTHER INTANGIBLES

Goodwill represents the excess of purchase price over the fair value of identifiable tangible and intangible net assets of businesses acquired. Goodwill and other intangibles are amortized on a straight-line basis over periods not exceeding 40 years. The recoverability of carrying values of intangible assets is evaluated on a recurring basis. The primary indicators of recoverability are current and forecasted profitability of a related acquired business. For the three-year period ended December 31, 1996, there were no material adjustments to the carrying values of intangible assets resulting from these evaluations.

INCOME TAXES

Deferred taxes are recognized for the expected future tax consequences of temporary differences between the amounts carried for financial reporting and tax purposes. Provision is made currently for taxes payable on remittances of overseas earnings; no provision is made for taxes on overseas retained earnings that are deemed to be permanently reinvested.

POSTRETIREMENT AND POSTEMPLOYMENT BENEFITS

The cost of postretirement health care and other benefits is actuarially determined and accrued over the service period of covered employees.

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

TRANSLATION OF OVERSEAS CURRENCIES

The assets and liabilities of subsidiaries, other than those operating in highly inflationary environments, are translated into U.S. dollars at year-end exchange rates, with resulting translation gains and losses accumulated in a separate component of shareholders' equity. Income and expense items are converted into U.S. dollars at average rates of exchange prevailing during the year.

For subsidiaries operating in highly inflationary environments, inventories, goodwill and property, plant and equipment are translated at the rate of exchange on the date the assets were acquired, while other assets and liabilities are translated at year-end exchange rates. Translation adjustments for these operations are included in net income.

GEOGRAPHIC AREAS AND INDUSTRY SEGMENTS

The financial and descriptive information on the Company's geographic area and industry segment data, appearing in the tables contained in management's discussion of this report, is an integral part of these financial statements.

3. ACQUISITIONS

During 1996, the Company acquired the Profiden oral care business in Spain, the Seprod fabric care business in Jamaica as well as other regional brands in the Oral, Personal and Household Care segment. The Company also expanded its investment in the Pet Nutrition segment in the Netherlands. The aggregate purchase price of all 1996 acquisitions was \$38.5.

On January 10, 1995, the Company acquired the worldwide Kolynos oral care business ("Kolynos") for \$1,040.0. Kolynos is an oral care business operating primarily in South America. The transaction was structured as a multinational acquisition of assets and stock and was accounted for under the purchase method of accounting. The net book value of Kolynos assets was approximately \$50.0. As further described in Note 16, during 1996, the antitrust regulatory authorities in Brazil approved the acquisition subject to certain conditions.

The following unaudited pro forma summary combines the results of the operations of the Company and Kolynos as if the acquisition had occurred as of the beginning of 1994 after giving effect to certain adjustments, including amortization of goodwill, increased interest expense on the acquisition debt incurred and the related income tax effects.

SUMMARIZED PRO FORMA COMBINED RESULTS OF OPERATIONS  
FOR THE YEAR ENDED DECEMBER 31, 1994

Net sales.....	\$7,864.0
Income before income taxes.....	835.4
Net income.....	550.9
Primary earnings per common share.....	3.62
Fully diluted earnings per common share.....	3.38

The pro forma financial information is not necessarily indicative of either the results of operations that would have occurred had the Company and Kolynos actually been combined during the year ended December 31, 1994, or the future results of operations of the combined companies. There are certain other

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

benefits that are anticipated to be realized from the implementation of the Company's integration plans which are not included in the pro forma information.

In addition, during 1995, the Company acquired the Odol oral care business in Argentina, the Barbados Cosmetic Products business in the Caribbean as well as other regional brands in the Oral, Personal and Household Care Segment. The aggregate purchase price of all 1995 acquisitions was \$1,321.9.

During 1994, the Company acquired the Cibaca toothpaste and toothbrush business in India, the NSOA laundry soap business in Senegal as well as several other regional brands in the Oral, Personal and Household Care segment. The aggregate purchase price of all 1994 acquisitions was \$149.8.

All of these acquisitions have been accounted for as purchases, and, accordingly, the purchase prices were allocated to the net tangible and intangible assets acquired based on estimated fair values at the dates of the respective acquisitions. The results of operations have been included in the Consolidated Financial Statements since the respective acquisition dates. The inclusion of pro forma financial data for all acquisitions except Kolynos prior to the dates of acquisition would not have materially affected reported results.

4. LONG-TERM DEBT AND CREDIT FACILITIES

Long-term debt consists of the following at December 31:

	WEIGHTED AVERAGE INTEREST RATE	MATURITIES	1996	1995
Notes.....	7.3%	1997-2025	\$ 1,292.9	\$1,149.2
ESOP notes, guaranteed by the Company.....	8.6	2001-2009	385.2	390.2
Payable to banks.....	5.5	2000-2003	836.0	101.8
Commercial paper and other short-term borrowings, reclassified.....	5.1	1997	375.1	1,378.2
Capitalized leases.....			8.0	9.6
			-----	-----
			2,897.2	3,029.0
Less: current portion of long- term debt.....			110.4	37.0
			-----	-----
			\$ 2,786.8	\$2,992.0
			=====	=====

Commercial paper and certain other short-term borrowings are classified as long-term debt as it is the Company's intent and ability to refinance such obligations on a long-term basis. Scheduled maturities of debt outstanding at December 31, 1996, excluding short-term borrowings reclassified, are as follows: 1997--\$110.4; 1998--\$184.9; 1999--\$167.1; 2000--\$339.6; 2001--\$97.6, and \$1,622.5 thereafter. The Company has entered into interest rate swap agreements and foreign exchange contracts related to certain of these debt instruments (see Note 12).

At December 31, 1996, the Company had unused credit facilities amounting to \$1,785.7. Commitment fees related to credit facilities are not material. The weighted average interest rate on short-term borrowings, excluding amounts reclassified, as of December 31, 1996 and 1995 was 7.5% and 8.3%, respectively.

The Company's long-term debt agreements include various restrictive covenants and require the maintenance of certain defined financial ratios with which the Company is in compliance.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

## 5. CAPITAL STOCK AND STOCK COMPENSATION PLANS

## PREFERRED STOCK

Preferred Stock consists of 250,000 authorized shares without par value. It is issuable in series, of which one series of 125,000 shares, designated \$4.25 Preferred Stock, with a stated and redeemable value of \$100 per share, has been issued and is outstanding. The \$4.25 Preferred Stock is redeemable only at the option of the Company.

## PREFERENCE STOCK

In 1988, the Company authorized the issuance of 50,000,000 shares of Preference Stock, without par value. The Series B Convertible Preference Stock, which is convertible into two shares of common stock, ranks junior to all series of the Preferred Stock. At December 31, 1996 and 1995, 5,849,039 and 6,014,615 shares of Series B Convertible Preference Stock, respectively, were outstanding and issued to the Company's ESOP.

## SHAREHOLDER RIGHTS PLAN

Under the Company's Shareholder Rights Plan, each share of the Company's common stock carries with it one Preference Share Purchase Right ("Rights"). The Rights themselves will at no time have voting power or pay dividends. The Rights become exercisable only if a person or group acquires 20% or more of the Company's common stock or announces a tender offer, the consummation of which would result in ownership by a person or group of 20% or more of the common stock. When exercisable, each Right entitles a holder to buy one two-hundredth of a share of a new series of preference stock at an exercise price of \$87.50.

If the Company is acquired in a merger or other business combination, each Right will entitle a holder to buy, at the Right's then current exercise price, a number of the acquiring company's common shares having a market value of twice such price. In addition, if a person or group acquires 30% or more of the Company's common stock, other than pursuant to a cash tender offer for all shares in which such person or group increases its stake from below 20% to 80% or more of the outstanding shares, each Right will entitle its holder (other than such person or members of such group) to purchase, at the Right's then current exercise price, a number of shares of the Company's common stock having a market value of twice the Right's exercise price.

Further, at any time after a person or group acquires 30% or more (but less than 50%) of the Company's common stock, the Board of Directors may, at its option, exchange part or all of the Rights (other than Rights held by the acquiring person or group) for shares of the Company's common stock on a one-for-one basis.

The Company, at the option of its Board of Directors, may redeem the Rights for \$.005 at any time before the acquisition by a person or group of beneficial ownership of 20% or more of its common stock. The Board of Directors is also authorized to reduce the 20% and 30% thresholds to not less than 15%. Unless redeemed earlier, the Rights will expire on October 24, 1998.

## INCENTIVE STOCK PLAN

The Company has a plan which provides for grants of restricted stock awards for officers and other executives of the Company and its major subsidiaries. A committee of non-employee members of the Board

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

of Directors administers the plan. During 1996 and 1995, 126,229 and 237,019 shares, respectively, were awarded to employees in accordance with the provisions of the plan.

STOCK OPTION PLANS

The Company's 1987 and 1996 Stock Option Plans ("Plans") provide for the issuance of non-qualified stock options to officers and key employees. Options are granted at prices not less than the fair market value on the date of grant. At December 31, 1996, 811,843 shares of common stock were available for future grants.

The Plans contain an accelerated ownership feature which provides for the grant of new options when previously owned shares of Company stock are used to exercise existing options. The number of new options granted under this feature is equal to the number of shares of previously owned Company stock used to exercise the original options and to pay the related required U.S. income tax. The new options are granted at a price equal to the fair market value on the date of the new grant and have the same expiration date as the original options exercised.

Stock option plan activity is summarized below:

	1996		1995

The Company applies Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations in accounting for options granted under the Plan. Accordingly, no compensation expense has been recognized. Had compensation expense been determined based on the Black-Scholes option pricing model value at the grant date for awards in 1996 and 1995 consistent with

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

the provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" (SFAS 123), the Company's net income, primary earnings per common share and fully diluted earnings per common share would have been \$621.7, \$4.09 per share and \$3.82 per share, respectively in 1996 and \$166.1, \$1.00 per share and \$.98 per share, respectively in 1995. The SFAS 123 method of accounting has not been applied to options granted prior to January 1, 1995, and the resulting pro forma compensation expense may not be indicative of pro forma expense in future years.

The weighted average Black-Scholes value of grants issued in 1996 and 1995 was \$10.81 and \$9.45, respectively. The Black-Scholes value of each option granted is estimated using the Black-Scholes option pricing model with the following assumptions: option term until exercise ranging from 2 to 4 years, volatility ranging from 17% to 18%, risk free interest rate ranging from 5.8% to 6.4% and an expected dividend yield of 2.5%. The Black-Scholes model used by the Company to calculate option values was developed to estimate the fair value of short-term freely tradable, fully transferable options without vesting restrictions and was not designed to value reloads, all of which significantly differ from the Company's stock option awards. The value of this model is also limited by the inclusion of highly subjective assumptions which greatly affect calculated values.

#### 6. EMPLOYEE STOCK OWNERSHIP PLAN

In 1989, the Company expanded its employee stock ownership plan (ESOP) through the introduction of a leveraged ESOP covering certain employees who have met certain eligibility requirements. The ESOP issued \$410.0 of long-term notes due through 2009 bearing an average interest rate of 8.6%. The long-term notes, which are guaranteed by the Company, are reflected in the accompanying Consolidated Balance Sheets. The ESOP used the proceeds of the notes to purchase 6.3 million shares of Series B Convertible Preference Stock from the Company. The Stock has a minimum redemption price of \$65 per share and pays semiannual dividends equal to the higher of \$2.44 or the current dividend paid on two common shares for the comparable six-month period. Each share may be converted by the Trustee into two shares of common stock.

Dividends on these preferred shares, as well as common shares also held by the ESOP, are paid to the ESOP trust and, together with contributions, are used by the ESOP to repay principal and interest on the outstanding notes. Preferred shares are released for allocation to participants based upon the ratio of the current year's debt service to the sum of total principal and interest payments over the life of the loan. At December 31, 1996, 1,275,380 shares were allocated to participant accounts.

Dividends on these preferred shares are deductible for income tax purposes and, accordingly, are reflected net of their tax benefit in the Consolidated Statements of Retained Earnings.

Annual expense related to the leveraged ESOP, determined as interest incurred on the notes, less employee contributions and dividends received on the shares held by the ESOP, plus the higher of either principal repayments on the notes or the cost of shares allocated, was \$3.9 in 1996, \$8.3 in 1995 and \$8.0 in 1994. Similarly, unearned compensation, shown as a reduction in shareholders' equity, is reduced by the higher of principal payments or the cost of shares allocated.

Interest incurred on the ESOP's notes amounted to \$33.5 in 1996, \$33.9 in 1995 and \$34.2 in 1994. The Company paid dividends on the stock held by the ESOP of \$31.1 in 1996, \$31.7 in 1995 and \$32.3 in 1994. Company contributions to the ESOP were \$4.1 in 1996, \$6.4 in 1995 and \$5.7 in 1994. Employee contributions to the ESOP were \$5.9 in 1996 and \$0 in 1995 and 1994.

7. RETIREMENT PLANS AND OTHER POSTRETIREMENT BENEFITS

RETIREMENT PLANS

The Company, its U.S. subsidiaries and a majority of its overseas subsidiaries maintain pension plans covering substantially all of their employees. Most plans provide pension benefits that are based primarily on years of service and employees' career earnings. In the Company's principal U.S. plans, funds are contributed to trustees in accordance with regulatory limits to provide for current service and for any unfunded projected benefit obligation over a reasonable period. To the extent these requirements are exceeded by plan assets, a contribution may not be made in a particular year. Plan assets consist principally of common stocks, guaranteed investment contracts with insurance companies, investments in real estate funds and U.S. Government obligations.

Net periodic pension expense of the plans includes the following components:

	1996		1995		1994	
	U.S.	OVERSEAS	U.S.	OVERSEAS	U.S.	OVERSEAS
Service cost--benefits earned during the period.....	\$ 24.5	\$ 15.1	\$ 19.1	\$ 15.4	\$ 23.1	\$17.9

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

The actuarial assumptions used to determine the projected benefit obligation of the plans were as follows:

	U.S.			OVERSEAS (WEIGHTED AVERAGE)		
	1996	1995	1994	1996	1995	1994
Settlement rates.....	7.50%	7.00%	8.75%	8.23%	8.46%	8.38%
Long-term rates of compensation increase.....	5.50	5.50	5.75	5.38	5.47	5.53
Long-term rates of return on plan assets.....	9.25	9.25	9.25	10.91	10.50	10.88

When remeasuring the pension obligation, the Company reassesses each actuarial assumption. The settlement rate assumption is pegged to long-term bond rates to reflect the cost to satisfy the pension obligation currently, while the other assumptions reflect the long-term outlook of rates of compensation increases and return on assets.

OTHER POSTRETIREMENT BENEFITS

The Company and certain of its subsidiaries provide health care and life insurance benefits for retired employees to the extent not provided by government-sponsored plans. The Company utilizes a portion of its leveraged ESOP, in the form of future retiree contributions, to reduce its obligation to provide these postretirement benefits. Postretirement benefits currently are not funded.

Postretirement benefits expense includes the following components:

	1996	1995	1994
Service cost-benefits earned during the period.....	\$ 1.7	\$ 1.9	\$ 2.2
Annual ESOP allocation.....	(5.0)	(4.2)	(5.7)
Interest cost on accumulated postretirement benefit obligation.....	12.6	13.7	14.2
Amortization of unrecognized net gain.....	(2.2)	(3.4)	(.1)
Net postretirement expense.....	\$ 7.1	\$ 8.0	\$10.6

The actuarial present value of postretirement benefit obligations included in Other liabilities in the Consolidated Balance Sheets is comprised of the following components, at December 31:

	1996	1995
Retirees.....	\$144.8	\$145.2
Active participants eligible for retirement.....	1.0	2.0
Other active participants.....	6.9	9.2
Accumulated postretirement benefit obligation.....	152.7	156.4
Unrecognized net gain.....	43.8	44.4
Accrued postretirement benefit liability.....	\$196.5	\$200.8

The principal actuarial assumptions used in the measurement of the accumulated benefit obligation were as follows:

	1996	1995	1994
Discount rate.....	7.50%	7.00%	8.75%
Current medical cost trend rate.....	6.50	8.00	10.00

ESOP growth rate..... 10.00% 10.00% 10.00%

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

When remeasuring the accumulated benefit obligation, the Company reassesses each actuarial assumption.

The cost of these postretirement medical benefits is dependent upon a number of factors, the most significant of which is the rate at which medical costs increase in the future. The effect of a 1% increase in the assumed medical cost trend rate would increase the accumulated postretirement benefit obligation by approximately \$14.8; annual expense would not be materially affected.

8. INCOME TAXES

The provision for income taxes consists of the following for the years ended December 31:

	1996	1995	1994
	-----	-----	-----
United States.....	\$ 67.2	\$ 18.0	\$ 43.3

	\$954.6	\$ 363.5	\$879.9
	=====	=====	=====

The difference between the statutory United States federal income tax rate and the Company's global effective tax rate as reflected in the Consolidated Statements of Income is as follows:

PERCENTAGE OF INCOME BEFORE TAX	1996	1995	1994
-----	-----	-----	-----
Tax at U.S. statutory rate.....	35.0%	35.0%	35.0%

	=====	=====

The major component of the 1996 and 1995 valuation allowance relates to tax benefits in certain jurisdictions not expected to be realized.

9. FOREIGN CURRENCY TRANSLATION

Cumulative translation adjustments, which represent the effect of translating assets and liabilities of the Company's non-U.S. entities, except those in highly inflationary economies, were as follows:

	1996	1995	1994
	-----	-----	-----
Balance, January 1.....	\$(513.0)	\$(439.3)	\$(372.9)
Effect of balance sheet translations.....	(21.7)	(73.7)	(66.4)
	-----	-----	-----
Balance, December 31.....	\$(534.7)	\$(513.0)	\$(439.3)
	=====	=====	=====

Foreign currency charges, resulting from the translation of balance sheets of subsidiaries operating in highly inflationary environments and from foreign currency transactions, are included in the Consolidated Statements of Income.

10. EARNINGS PER SHARE

Primary earnings per share are determined by dividing net income, after deducting preferred stock dividends net of related tax benefits (\$21.4 in 1996, \$21.6 in 1995 and 1994), by the weighted average number of common shares outstanding (146.6 million in 1996, 145.2 million in 1995 and 146.2 million in 1994).

Earnings per common share assuming full dilution are calculated assuming the conversion of all potentially dilutive securities, including convertible preferred stock and outstanding options, unless the effect of such conversion is antidilutive. This calculation also assumes reduction of available income by pro forma ESOP replacement funding, net of income taxes.

## FAIR VALUE OF FINANCIAL INSTRUMENTS

In assessing the fair value of financial instruments at December 31, 1996 and 1995, the Company has used available market information and other valuation methodologies. Some judgment is necessarily required in interpreting market data to develop the estimates of fair value, and, accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

The estimated fair value of the Company's financial instruments at December 31 are summarized as follows:

## FINANCIAL INSTRUMENTS AND RATE RISK MANAGEMENT

The Company utilizes interest rate agreements and foreign exchange contracts to manage interest rate and foreign currency exposures. The principal objective of such contracts is to moderate the effect of fluctuations in interest rates and foreign exchange rates. The Company, as a matter of policy, does not speculate in financial markets and therefore does not hold these contracts for trading purposes. The Company utilizes what it considers straightforward instruments, such as forward foreign exchange contracts and non-leveraged interest rate swaps, to accomplish its objectives.

The Company primarily uses interest rate swap agreements to effectively convert a portion of its floating rate debt to fixed rate debt in order to manage interest rate exposures in a manner consistent with achieving a targeted fixed to variable interest rate ratio. The net effective cash payment of these financial derivative instruments combined with the related interest payments on the debt that they hedge are accounted for as interest expense. Those interest rate instruments that do not qualify as hedge instruments for accounting purposes are marked to market and carried on the balance sheets at fair value. As of December 31, 1996 and 1995, the Company had agreements outstanding with an aggregate notional amount of \$1,210.9 and \$1,142.2, respectively, with maturities through 2025.

The Company uses forward exchange contracts principally to hedge foreign currency exposures associated with its net investment in foreign operations and overseas debt. This hedging minimizes the impact of foreign exchange rate movements on the Company's financial position. The terms of these contracts are generally less than five years.

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

As of December 31, 1996 and 1995, the Company had approximately \$676.9 and \$972.0, respectively, of outstanding foreign exchange contracts. At December 31, 1996, approximately 15% of outstanding foreign exchange contracts served to hedge net investments in foreign subsidiaries, 40% hedged intercompany loans, 40% hedged third-party firm commitments and the remaining 5% hedged certain transactions that are anticipated to settle in accordance with their identified terms. The Company makes net settlements for foreign exchange contracts at maturity, based on rates agreed to at inception of the contracts.

Gains and losses from contracts that hedge the Company's investments in its foreign subsidiaries are shown in the cumulative translation adjustments account included in shareholders' equity. Gains and losses from contracts that hedge firm commitments are recorded in the balance sheets as a component of the related receivable or payable until realized, at which time they are recognized in the statements of income.

The contracts that hedge anticipated sales and purchases do not qualify as hedges for accounting purposes. Accordingly, the related gains and losses are calculated using the current forward foreign exchange rates and are recorded in the statements of income as other expense, net. These contracts mature within 15 months.

The Company is exposed to credit loss in the event of nonperformance by counterparties on interest rate agreements and foreign exchange contracts; however, nonperformance by these counterparties is considered remote as it is the Company's policy to contract only with counterparties that have a long-term debt rating of A or higher. The amount of any such exposure is generally the unrealized gain on such contracts, which at December 31, 1996 was not significant.

13. MARKET AND DIVIDEND INFORMATION

The Company's common stock and \$4.25 Preferred Stock are listed on the New York Stock Exchange. The trading symbol for the common stock is CL. Dividends on the common stock have been paid every year since 1895, and the amount of dividends paid per share has increased for 34 consecutive years.

- (1) The sum of the quarterly fully diluted earnings (loss) per share amounts is not equal to the full year because the computations of the weighted average number of shares outstanding and the potential impact of dilutive securities for each quarter and for the full year are required to be made independently.
- (2) The third quarter of 1995 includes a provision for restructured operations of \$460.5 (\$369.2 aftertax) or \$2.54 per share on a primary basis and \$2.50 per share on a fully diluted basis.

15. RESTRUCTURED OPERATIONS

In September 1995, the Company announced a major worldwide restructuring of its manufacturing and administrative operations designed to further enhance profitable growth over the next several years by generating significant efficiencies and improving competitiveness. As a result of this rationalization, 24 of the 112 factories worldwide will be closed or significantly reconfigured of which 14 had been closed or reconfigured at the end of 1996.

The changes are expected to be substantially completed during 1997 in facilities around the world, but primarily in North America and Europe. The charge includes employee termination costs, expenses associated with the realignment of the Company's global manufacturing operations as well as settlement of contractual obligations.

The worldwide restructuring program resulted in a 1995 pretax charge of \$460.5 (\$369.2 net of tax) or \$2.54 per share for the year.

A summary of the restructuring reserve established is as follows:

	ORIGINAL RESERVE	UTILIZED IN 1995	BALANCE AT DECEMBER 31, 1995	UTILIZED IN 1996	BALANCE AT DECEMBER 31, 1996
	-----	-----	-----	-----	-----

COLGATE-PALMOLIVE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

Of the restructuring reserve remaining as of December 31, 1996 and 1995, \$115.2 and \$100.0, respectively, is classified as a current liability, \$38.0 and \$175.9, respectively, as a noncurrent liability, and \$50.0 and \$159.7, respectively, as a reduction of fixed assets.

16. COMMITMENTS AND CONTINGENCIES

Minimum rental commitments under noncancellable operating leases, primarily for office and warehouse facilities, are \$70.0 in 1997, \$58.4 in 1998, \$51.7 in 1999, \$47.5 in 2000, \$44.7 in 2001 and \$193.1 for years thereafter. Rental expense amounted to \$93.3 in 1996, \$91.8 in 1995 and \$83.4 in 1994. Contingent rentals, sublease income and capital leases, which are included in fixed assets, are not significant.

The Company has various contractual commitments to purchase raw materials, products and services totaling \$123.4 that expire through 1998.

The Company is a party to various superfund and other environmental matters and is contingently liable with respect to lawsuits, taxes and other matters arising out of the normal course of business. Management proactively reviews and manages its exposure to, and the impact of, environmental matters. While it is possible that the Company's cash flows and results of operations in particular quarterly or annual periods could be affected by the one-time impacts of the resolution of such contingencies, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material impact on the Company's financial condition or ongoing cash flows and results of operations.

As discussed in Note 3, the acquisition of Kolynos was reviewed by antitrust regulatory authorities in Brazil. The antitrust regulatory authorities in Brazil approved the acquisition subject to certain conditions. The Company is currently negotiating undertakings related to those conditions with the Brazilian authorities. Among other things, those undertakings would result in the substitution by the Company of a new toothpaste brand for Kolynos in Brazil for four years and the Company contract manufacturing toothpaste in Brazil for third parties during this period.

17. SUBSEQUENT EVENT

On March 6, 1997, the Company's Board of Directors approved a two-for-one common stock split effected in the form of a 100% stock dividend. As a result of the split, shareholders will receive one additional share of Colgate common stock for each share they hold as of April 25, 1997. Par value will remain at \$1 per share. Giving retroactive effect for the stock split, common shares issued as of December 31, 1996 would have been 366,426,590. Earnings per share, after giving retroactive effect to the two-for-one split, are presented below for each of the three years ended December 31:

	1996	1995	1994
	-----	-----	-----
Primary.....	\$2.09	\$0.52	\$1.91
Fully Diluted.....	1.95	0.51	1.78

Financial information contained elsewhere in this report has not been adjusted to reflect the impact of the common stock split.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors and Shareholders of  
Colgate-Palmolive Company:

We have audited the accompanying consolidated balance sheets of Colgate-Palmolive Company (a Delaware corporation) and subsidiaries as of December 31, 1996 and 1995, and the related consolidated statements of income, retained earnings, changes in capital accounts and cash flows for each of the three years in the period ended December 31, 1996. These financial statements and the schedules referred to below are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Colgate-Palmolive Company and subsidiaries as of December 31, 1996 and 1995, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 1996, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules listed in the index to financial statements are presented for purposes of complying with the Securities and Exchange Commission's rules and are not part of the basic financial statements. The schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly state in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.
