Interest will accrue from and including each Interest Payment Date to but excluding the next succeeding Interest Payment Date. In the event an Interest Payment Date falls on a day other than a Business Day, interest will be paid on the next succeeding Business Day and no interest on such payment shall accrue for the period from and after such Interest Payment Date to such next succeeding Business Day. ## Optional Redemption:

The Company may at its option elect to redeem the Notes in whole on April 22, 1998 or on any Interest Payment Date thereafter (each such date, an "Optional Redemption Date") at 100\% of their principal amount plus accrued interest to but excluding the date of redemption (the "Redemption Date"). In the event the Company elects to redeem the Notes, notice will be given to registered holders not more than 60 nor less than 30 days prior to the Redemption Date.

```
Certain Investment Considerations:
```

Prospective purchasers of the Notes should be aware that the Notes will pay interest at different fixed rates each year after the second anniversary of the date of original issuance through the Stated Maturity Date unless earlier redeemed by the Company. Prospective purchasers should also be aware that the Company has the option to redeem the Notes on any Optional Redemption Date and will be likely to elect to redeem the Notes in the event prevailing market interest rates are lower than the then-current interest rate on the Notes.

Certain Federal Income Tax Considerations

As discussed in greater detail in the accompanying Prospectus Supplement, because the Notes are redeemable by the Company on the Optional Redemption Dates, under the OID Regulations, the Notes would be treated as maturing on April 22, 1998 and on each successive Optional Redemption Date, and all stated interest on the Notes would constitute "qualified stated interest."
