 $^{^{(1)}}$ The impact of non-GAAP adjustments on the diluted earnings per share may not necessarily equal the difference between "GAAP" and "non-GAAP" as a result of rounding.

⁽²⁾ As a result of the two-for-one stock split, effective May 15, 2013, all historical per share data and number of shares were retroactively adjusted. Diluted earnings per share was computed independently for each quarter and the year-to-date period presented. As a result of the stock split, changes in shares outstanding during the year and rounding, the sum of the quarters' earnings per share may not necessarily equal the earnings per share for the year-to-date period.
